WARNING

CUT, CRUSH, AND ELECTROCUTION HAZARDS.

Every person working on or near this equipment must watch or read the safety documentation listed below before working near this equipment!

Failure to follow safety, operating, and maintenance procedures in the safety documents listed below may result in severe injury or death.

SAFETY INFORMATION

<https://www.mitek-us.com/resources/machinery/safety-videos/>

Use our safety information as part of your own safety training program for every employee.

Safety information may be available in English and Spanish.

PARTS GUIDES

<https://www.mitek-us.com/resources/machinery/find-and-order-parts/>

Use our interactive Parts Guides to easily locate part numbers and make ordering replacement parts faster and easier.

EQUIPMENT MANUALS

<https://www.mitek-us.com/resources/machinery/equipment-manuals/>

Keep a printed copy of the Operation section at the machine and the Maintenance section where maintenance can easily find it.

Color images must be printed in color for clarity.

The manual's safety section is provided in English and Spanish.
